

Residential Tax Abatement

Altoona's Urban Revitalization Plan pertaining to residential tax abatement is as follows:

New Residential Construction – all qualified real estate assessed as residential property is eligible to receive a one hundred percent (100%) exception from taxation on the first \$75,000.00 of actual value added by the improvements. This exemption is for a period of five years. The lot must be in an approved subdivision, the new home is required to be owner-occupied, and if the property is within a plat approved after December 31, 2006, the lot may be required to have two hardwood trees for tax abatement eligibility. Please see the City Approved Tree list, which is on the following two pages. The https://example.com/homeowner must apply for Tax Abatement once they close on the property.

Example: A new home is assessed at \$300,000.00 by the Polk County Assessor. After abatement is applied, the assessment is reduced to \$225,000.00 for taxation purposes. The \$75,000.00 reduction in assessed valuation is constant for five tax years.

PLEASE NOTE: Boulder Creek Estates Plats 1 & 2 are NOT eligible for Tax Abatement.

Residential Improvement – A home improvement that increased the property assessment, as determined by the Polk County Assessor, by ten percent or more, that portion of the increased assessment, up to a maximum of \$75,000 is eligible for a five-year tax abatement.

Questions? Contact the Altoona Building Department – 515-957-5128

Please refer to the Polk County Assessor's <u>website</u> for additional information on Urban Revitalization Tax Abatement.

Tax Abatement Applications can be submitted at www.citizenserve.com/altoona.

Approved Trees for Tax Abatement

The following list is approved by the Altoona City Council for Tax Abatement eligibility. Applicants must install (2) two trees from this list. All trees must be 1½ inch caliper. Multiple trunk trees shall have a minimum of three trunks of equal size, with an overall height of 6 to 8 feet. For questions, please contact the Altoona Building Department at 515-957-5128.
